PROFESSIONAL SUMMARY

I am a fresh UX designer with two years of self-taught experience, enhanced by the Google UX Design course. Although I lack formal experience, I am dedicated and aim to become a senior UX designer. My best qualities include attention to detail, problem-solving skills, and the ability to collaborate with different stakeholders. I also have a strong knowledge of the latest design tools, such as Sketch, Figma, Adobe XD, etc. I am highly motivated to create innovative and user-friendly experiences that meet customer requirements while driving business objectives. Additionally, I have strong skills in Python, MySQL, and front-end development, which enhance my ability to create well-rounded user experiences. Lastly, I did workshops on Ethical Hacking as well.

AWARDS

🏆 Tata Strive: Google UX design (Coursera)

🏆 Remark Skill: Workshop on Ethical Hacking (IIT Guwahati)
